

Pediatric Parenting Connections

Pediatric Parenting Connections (PPC) is a colocated **evidenced-based pediatric model** that places highly qualified family educators into pediatric practices to provide evidence-based education and support for parents of young children. PPC provides age-appropriate developmental screenings and referrals to appropriate community resources.

Lasting Impact

- **68%** of children referred to early intervention successfully had the referral loop closed
- **35%** of families through PPC signed up for another Imprints Cares home-visiting program
- **79%** of mothers were still providing breastmilk two months after receiving breastfeeding support
- **100%** of pediatric providers reported Imprints Cares services have benefited children, their parents, and staff.
- **100%** of parents felt they received the information they needed and would use Imprints Cares again.

"My experience today was very supportive. I left feeling a weight lifted. I absolutely love Julia. She sets up referrals quickly and offered tons of support for me. I'm really appreciative for Imprints services."

Fiscal Year 2023 Program Impact
